

SOUTH AFRICAN FRESHWATER BANK ANGLING FEDERATION (SAFBAF) SUID AFRIKAANSE VARSWATER OEWERHENGEL FEDERASIE (SAVOF)

REKORD AANSOEK PROSEDURES EN RIGLYNE

Fotografering van vangste

1. Foto's moet geneem word sodat die hele lengte van die vis (sy-aansig) duidelik sigbaar is. Daar moet veral gelet word op die volgende:
 - a. Alle vinne (veral rugvin) moet duidelik sigbaar wees – dws oopgespan wees.
 - b. Die vis moet op 'n agtergrond geplaas word wat identifikasie vergemaklik bv. Donker vis op ligte agtergrond en ligte vis op swart agtergrond.
 - c. Plaas 'n lineal (of enige maklik herkenbare voorwerp bv Koeldrank blik) langs die vis om werklike grootte aan te dui.
2. Neem alle fotos vanaf ongeveer 1m.
3. Swart Baars: Bek moet toe wees.
4. Geelvis: Twee fotos van die onder-kaak moet die aansoek vergesel.

METING VAN DIE VIS

Fish with square tail – Vis sonder gepunte stert

Lengte is gemeet van X – X . Vanaf die punt van die toe mond tot die einde van die stertvin.

Length is measured from tip of the closed mouth to the end of the tail fin.

Omtrek is gemeet vanaf Y terug tot Y om die breedste deel van die bors.

Girth is measured from Y to Y around the broadest part of the body.

BEWARING VAN VIS

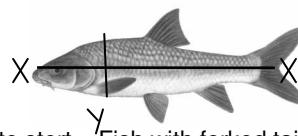

1. As die hele vis nie bewaar kan word nie, moet die vel afgetrek word (Die kop, kieuwe en vinne moet nie verwyder word nie), die vis moet dan opgerol word en geplaas word in:
 - a. Verdunde formalin (1 deel met 6 dele water)
 - b. Brandspiritus.
 - c. Sout
2. Waar moontlik moet record visse vrygelaat word of vir wetenskaplike navorsing beskikbaar stel.

RECORD APPLICATION PROCEDURES AND GUIDELINES

Photographing of catches

1. Photos must be taken (side-view) clearly showing the whole length of the fish. Attention must be paid to the following points:
 - a. All the fins (especially the dorsal fin) must be clearly visible – ie. Opened up.
 - b. The fish must be placed against a background on which contrasts ie light coloured fish on a dark background and a dark fish on a light background.
 - c. Place a ruler (or easily recognizable object ie cold drink can) alongside the fish to indicate actual size.
2. Photographs must all be taken from approximately 1m.
3. Black Bass: The mouth must be closed.
4. Yellow Fish: Two photographs of the bottom jaw must accompany the application.

MEASURING THE FISH

Vis met gepunte stert – Fish with forked tail

Gemeet vanaf xx tot xx. Vanaf die punt van die toe mond tot die binnekant van die vurk in die stertvin.

Measured from xx to xx the tip of the closed mouth to the inside of the fork in the tail fin.

Omtrek is gemeet vanaf Y terug tot Y om die breedste deel van die bors.

Girth is measured from Y to Y around the broadest part of the body.

PRESERVING FISH

1. If unable to preserve the complete fish, the specimen should be skinned (leaving the head, gills and the fins intact), Roll this up and preserve in:
 - a. Dilute formalin (1 part with 6 parts water)
 - b. Methylated Spirits
 - c. Salt
2. Where possible members should return their catches or donate them for scientific research.

LYN KLASSIFIKASIE

Daar bestaan 3 afsonderlike lyn kategorie records waarvoor daar aansoek gedoen kan word nl:

- Lig: Lyn met 'n deursneë van 0.22mm en dunner.
- Medium: Lyn met 'n deursneë van tussen 0.22mm en 0.30mm.
- Ope: Lyn met 'n deursneë hoër as 0.30mm, asook enige sintetiese lyn bv Dacron, Powerbraid en Fireline.

REKORD KLASSIFISERING

Daar is twee rekord kategorieë waarvoor individue aansoek kan doen nl:

1. Beheerde Kompetisie Rekords
2. Ope (Buite Kompetisie) Rekords

BEHEERDE KOMPETISIE REKORDS

1. **Omskrywing:** Hierdie is enige kompetisie of proewe op Provinsiale en hoër vlakke wat beheer en geadministreer word deur 'n hengel beampte met die minimum kwalifikasie as 'n Provinsiale beampte.
2. Die volgende prosedures moet gevolg word:
 - a. Vir lyn klas aansoeke. Die hengelaar se vangs moet geweeg word alvorens hy die uitrusting waarmee hy/sy die vis gevang het weer gebruik.
 - b. Die gooi voorslag en lyn dikte moet deur die beheer beampte gekontroleer word (meet met 'n micrometer 3 plekke op 2m lengte van lyn) alvorens die hengelaar weer mag werp (Die vis moet in die hounet geplaas word alvorens die hengelaar weer mag werp)
 - c. Die gooi voorslag mag nie langer as twee (2) stoklengtes (strop ingesluit) wees nie. Indien dit wel langer as twee stoklengtes is sal die voorslag as die hooflyn geag te wees, as die voorsalg 0.28mm is, dan is die aansoek vir medium gerei en indien oor 0.30mm vir ope gerei klas.
 - d. Die sone/kompetisie beheer beampte reik die hengelaar uit met 'n sertifisering van die vangs (in hierdie boek) as bewys van die vangs en die vangs besonderhede.
 - d. Die hengelaar is nou verantwoordelik om aansoek te doen vir sy/haar beheerde record via sy/haar klub na die provinsiale rekordsbeampte en indien relevant na die SAVOF rekordsbeampte.
 - e. Die hengelaar moet 'n geaffilieerde lid van die SAVOF wees, wie deelgeneem het aan 'n goedgekeurde SAVOF beheerde wedstryd tydens die vangs om te kwalifiseer vir 'n beheerde kompetisise record, aansoeke wat nie die relevante affiliasie besonderhede aandui sal nie verwerk word nie.

LINE CLASSIFICATIONS

3 Line class categories exist for record purposes nl:

- Light: Line with a diameter of 0.22mm and thinner.
- Medium: Line with a diameter of between 0.22mm and 0.30mm.
- Open: Lyn met 'n diameter thicker than 0.30mm. All synthetic lines are included in this category ie. Dacron, Powerbraid and Fireline.

RECORD CLASSIFICATION

There are two categories of records for which individuals may apply for records nl:

1. Controlled Competition Records
2. Open (Out of Competition) Records

CONTROLLED COMPETITIONS RECORDS

Definition: This is any competition or trials that are presented on Provincial level and higher that is controlled and administered by an angling official with the minimum qualifications of a Provincial Official.

2. The following procedures are to be followed in applying for a record in this category:
 - a. For line class applications. The angler's fish is to be weighed by the official and his casting leader as well as main line checked and measured with a micrometer (3 places along a 2m length of the line in question) before the angler casts his line in again.
 - b. The casting leader may not be longer than twice the rods length (2) the trace included, if it is longer than twice the length the leader will be deemed to be the main line. If a leader of 0.28mm is being used then the application will be for medium tackle and if over 0.30 for open class.
 - c. The official in charge of the zone /competition is to complete a certification (enclosed in this booklet) and supply it to the angler as proof of his/her catch.
 - d. The angler is responsible to now apply for his/her controlled competition record via his club to provincial records officer and if relevant to the SAFAA records officer.
 - e. The angler must be an affiliated member of the SAFAA, competing in a SAFAA sanctioned competition to qualify for this record and applications will not be processed if the anglers registration details do not appear on the application.

- f. Indien die hengelaar hy/sy vangs in die hounet plaas en dan eers aan die einde van die dag die vangs weeg sal die vangs as 'n vangs met ope klas gerei geag word, ongeag die werklike uitrusting gebruik vir die vangs. Die hengelaar mag egter aansoek doen vir 'n ope Rekord vir die bepaalde lynklas deur om die Prosedure vir die aansoek om ope rekords te vold, die vereiste fotos kan vervang word met die Beamptes sertifisering.
- g. Junior rekords mag deur enige hengelaar geëis word wie jonger as 18 jaar oud is ten tye van die vangs.
- h. Die goue reel bly, indien onseker, doen aansoek en laat die records beampte besluit.
- e. Slegs vangste gemaak binne die RSA lands grense sal in aanmerking geneem word vir SAVOF Rekords, Beheerd en Ope.

OPE REKORDS

1. Alle geaffilieerde SAVOF lede wie, wanneer hulle ingevolge die relevante Ordinansies hengel en moontlike rekord vangs maak is geregtig om aansoek te doen vir 'n SAVOF Ope Kompetisie record by 'n klub kompetisie en of 'n sosiale hengel uitstappie.
2. Die procedures vir so 'n aansoek is soo volg:
 - a. The vangs moet op 'n Regerings geykte skaal geweeg word, maw 'n skaal gesertifiseer vir handel.
 - b. Die volgende moet die aansoek vergesel:
 - 2 Fotos van die vis, geneem soos beskryf in hierdie boek (1 met 'n herkenbare item en die vis en die ander van die hengelaar en sy vangs)
 - Sertifisering van die gewig asook die besonderhede van waar die geykte skaal gehou word.
 - Volledige aansoek vorm.
 - c. Indien 'n hengelaar tydens 'n beheerde kompetisie 'n vis vang wat groter is as die Ope rekord mag die hengelaar aansoek doen vir die ope rekord, die fotos word in hierdie geval vervang met die Beamptes sertifisering. Dit is die hengelaar se verantwoordelikheid om hierdie aansoek in te dien.
3. Beëdigde verklaring, waar geen getuies by was tydens die vangs.
4. Junior rekords mag deur enige hengelaar geëis word wie jonger as 18 jaar oud is ten tye van die vangs.
5. Die goue reel bly, indien onseker, doen aansoek en laat die records beampte besluit.
6. Slegs vangste gemaak binne die RSA lands grense sal in aanmerking geneem word vir SAVOF Rekords, Beheerd en Ope,

- f. If the angler places his/her catch in the keepnet and only weighs the fish at the end of the day the fish will only be eligible for an open class controlled competition record. The angler may however proceed to apply for an Open record for the relevant line class by following the procedure as set out for applying for Open records. The photographs of the fish are however replaced by the official's certification of the catch.
- g. Junior records may be claimed by any angler who is younger than 18 at the time of the catch.
- h. The golden rule remains, if in doubt, apply and let the records officer decide.
- i. Only catches made within the Borders of the RSA will be considered for SAFBAF records purposes.

OPEN RECORDS

1. All affiliated SAFAA members who when angling in accordance with the relevant Ordinances and who catch a possible record fish are eligible to apply for an SAFAA Open Record ie. at a club competition or social angling trip.
 2. The procedures to be followed are as follows:
 - a. The catch must be weighed on a Government Calibrated scale ie a scale certified to trade with.
 - b. The application must be submitted along with:
 - 2 Photos of the fish as described in this booklet (one with recognizable item and the other with the Angler)
 - Certificate of weight as well as contact numbers for the place where the scale is kept.
 - Completed application form.
 - d. Should an angler catch a fish larger than an open record during a controlled competition, he/she may apply for the open record, once again it is the responsibility of the angler to apply. The angler has after all caught a record fish, irrespective of the circumstances.
 3. Where no witnesses were present an affidavit with regards to the catch.
 4. Junior records may be claimed by any angler who is younger than 18 at the time of the catch.
 5. The golden rule remains, if in doubt, apply and let the records officer decide.
- Only catches made within the Borders of the RSA will be considered for SAFBAF records purposes.
